

S. S. Gaitonde

I am 97 now and suffering from fragile health due to old age and loss of memory. Though I have stopped active practice in the year 2013 due to my ill health, I keep receiving the major news about our Association through Sujata. I was especially touched by the felicitation done by the managing committee under the Presidentship of Mr Pravin Shinde who visited our residence for the purpose. It is the great tradition of our Association that we do not put out of mind the contributions of the senior generation and respect them. I was very happy to know that our great Association is stepping into its 75th year and would be celebrating Platinum Jubilee in the coming year starting with its foundation day 17th November, 2025. I am making sincere effort to recollect my memories with the Association as far as possible. I started my practice in the year 1955 after a short stint in the sales tax department. There used to be a large companies circle in the department where I worked.....
