

Parth Badheka

Dear Members, As the financial year draws to a close, one can almost feel the collective shift in our fraternity towards compliance, documentation, and closure of responsibilities. For the Association, however, there is no such pause. The momentum continues, and if anything, the pace only intensifies. The month has been truly power packed, and we will continue to remain engaged with meaningful programs right up to the very last day of 31st March 2026. Artificial Intelligence today is no longer a distant complex concept. It is ubiquitously becoming an integral part of professional life. The Association had, in August 2025, conducted a highly successful foundational course on AI. At that time we had promised that the association shall conduct a highly curated advanced AI course which will help our members in all walks of their professional life. The other promise which I had made to my committee is that going forward just like GSTPAM never required to scout expert facu.....
