Portal updates Sr. No Particulars Implications of Updates 1 GSTN enhances GST registration application user interface. Now the address will be auto picked by the map incorporated in the address field. Map will be incorporated in the address filed of registration application where pinhead can be dragged and drop at the exact location. Address fields have been linked so as to auto- fill other macro level address entry fields based on the entry in one of such fields particularly PIN Codes. For example; on entering the PIN code, the corresponding State and Districts will get auto- filled. ....
